I will visit family & friends again who live further away.

I will have a brunch with my closest friends and we will eat & chat & laugh until it's teatime and we can start eating again.

I will have founded "Herbivore Animation Studios" with my beloved collaborators from Filmaka. We will have the finest oat milk for our coffee & the most motivated employees, as they will receive a massage during each critique session.

I will be so organized & tidy that not even an uncategorizable piece of paper will break my calm.

Personal comic from the first Covid lockdown with wishes for the future.
Acrylic markers & colored pencil.
